REVOLUTION RANKED #3 IN DALLAS

Revolution Retail Systems ranked #3 fastest growing private company in Dallas.

Dallas, Texas, November 17, 2017: Revolution Retail Systems has been ranked the third (#3) fastest growing company by the Caruth Institute for Entrepreneurship at Southern Methodist University's Cox School of Business. This marks the second consecutive year that Revolution was ranked in the Dallas 100™.

Dallas 100™, co-founded by the Caruth Institute, honors the ingenuity, commitment and perseverance of the fastest-growing privately held entrepreneurial businesses in the Dallas area. According to Caruth Institute data, this year's winning companies collectively generated billions of dollars in sales over just the past three years.

According to Jerry White, the Linda A. and Kenneth R. Morris Endowed Director of the Caruth Institute for Entrepreneurship, "The entrepreneurial spirit that drives these companies helps make Dallas a dynamic city for business. We feel it's only right to shine the spotlight on their hard work and the contributions they make to our economy."

"We are thrilled to be recognized as the third fastest growing company in the Dallas area. We have experienced phenomenal growth over the last two years and this couldn't have been accomplished without the commitment from all of our amazing employees. I look forward to continuing this growth trend into 2018" said Mark Levenick, CEO/Chairman.

About:

Revolution Retail Systems was founded in 2009 based on a design concept to build a system that would automate the manual cash handling processes found commonly in all facets of retail. Today, Revolution is a best in class innovator, in the design of cash recycling solutions for business of all sizes.
